

# Alarm System Test Record

Test your system every month!

- To test your system with the monitoring company, you will need to call them and put your system on test; (800) 462-5353
- Once your system is on test, arm your system to “away”, then open and close the door so the system thinks you left.
- Wait for the system to count down and arm itself, then walk in front of a motion or open a different door. This should set off the alarm.
- Let the alarm go off for a minimum of 60 seconds, then turn it off.
- Call the monitoring company back and see if they have received your alarm signals.

	Test Date	Test Time	Condition Activated	Condition Received	Operator Name
1	_____	_____	_____	_____	_____
2	_____	_____	_____	_____	_____
3	_____	_____	_____	_____	_____
4	_____	_____	_____	_____	_____
5	_____	_____	_____	_____	_____
6	_____	_____	_____	_____	_____
7	_____	_____	_____	_____	_____
8	_____	_____	_____	_____	_____
9	_____	_____	_____	_____	_____
10	_____	_____	_____	_____	_____
11	_____	_____	_____	_____	_____
12	_____	_____	_____	_____	_____
